

## Quality Policy Statement

It is the aim of Hofmann Facades to consistently achieve high standards of service by designing and installing natural stone cladding and flooring projects that meet the needs and expectations of our clients.

To achieve our strategic policy aims, a quality management system fulfilling the requirements of ISO9001:2015 has been developed to support and direct the organisation's operational activities, from the management and review of projects to office administration and there is a commitment to satisfy all applicable aspects of the standard.

Hofmann has also structured a number of quality objectives that are aimed at improving the quality management system, communicated throughout the business, regularly reviewed to ensure the objectives are being met and to identify any additional ones for inclusion.

This Quality Policy has been communicated to and understood by Hofmann's directors, managers, supervisors and administration staff and is reviewed, revised and updated on a regular basis to ensure continued effectiveness and is available to interested parties.
